SUPER FRICTION PROOFING®

**Oil Friction Modifier
Protects the turbo**

Wynn's Super Friction Proofing® improves the lubricating and cleaning properties of engine oils, reduces friction and prevents formation of black sludge and varnish.

Properties

- ✓ Protects and enhances modern engines.
- ✓ Reduces friction and wear.
- ✓ Conditions metal surfaces.
- ✓ Retards oil ageing.
- ✓ Reduces fuel consumption.
- ✓ Prevents oxidation and premature thickening of the oil.
- ✓ Stops formation of sludge and deposits.
- ✓ Retards fouling of the oil filter.
- ✓ Does not harm catalytic converters.
- ✓ Compatible with all mineral, synthetic, single- and multigrade oils and suitable for regular and low SAPS applications.

Applications

- ✓ For petrol, diesel, LPG and hybrid engines (with or without turbocharger).
- ✓ Especially recommended for turbocharged and "stop/start" technology engines.
- ✓ High mileage drivers will benefit from topping up the engine oil with Super Friction Proofing half way between oil service intervals to boost the oil and protect the engine.
- ✓ Do not use in motorcycles with a wet clutch.

Directions

- ✓ Add to engine oil at every oil change.
- ✓ May also be added to engine oil between changes.
- ✓ 1 metal can of 325 ml treats 3 to 6 litres engine oil.
